HUNTINGDON, PA.

Tuesday Afternoon, July 9, 1861.

The Star-Spangled Banner.

Oh! say, can you see, by the dawn's early light,
What so proudly we hail'd at the twilight's last gleaming!
Whose broad stripes and bright stars through the perilous fight,
O'er the ramparts we watch'd, were so gallantly streaming!
And the rocket's red glare, the bombs bursting in air,
Gave proof through the night that our flag was still there!
Oh! say, does that star-spangled banner yet wave,
O'er the land of the free, and the home of the brave!

On the shore, dimly seen through the mists of the deep,
Where the foes haughty host in dread silence reposes,
What is that which the breeze, o'er the towering steep,
As it fitfully blows, half conceals, half discloses?
Now it catches the gleam of the morning's first beam;
In full glory reflected, now shines on the stream—
'Tis the star-spangled banner! Oh, long may it wave,
O'er the land of the free, and the home of the brave!

And where is that band who so vauntingly swore
That the havoc of war, and the battle's confusion,
A home and a country should leave us no more?
Their blood has wash'd out their foul footstep's pollution.
No refuge could save the hireling and slave,
From the terror of flight or the gloom of the grave!
And the star-spangled banner in triumph doth wave,
O'er the land of the free, and the home of the brave!

Oh! thus be it ever, when freemen shall stand
Between their loved home and war's desolation!
Blessed with victory and peace, may the Heaven-rescued land
Praise the Power that hath made and preserved us a nation!
Then conquer we must, when our cause it is just,
And this our motto:—"In God is our trust!"
And the star-spangled banner in triumph shall wave,
O'er the land of the free, and the home of the brave!

Red, White, and Blue.

Oh Columbia, the gem of the ocean,
The home of the brave and the free,
The shrine of each patriot's devotion,
A world offers homage to thee.
Thy mandates make heroes assemble,
When liberty's form stands in view,
Thy banners make tyranny tremble,
When borne by the red, white, and blue.
When borne by the red, white, and blue,
When borne by the red, white, and blue,
When borne by the red, white, and blue,
Thy banners make tyranny tremble,
When borne by the red, white, and blue.

When war waged its wide desolation,
And threaten'd our land to deform,
The ark then of freedom's foundation,
Columbia rode safe through the storm.
With her garland of victory o'er her,
When so proudly she bore her bold crew,
With her flag proudly floating before her,
The boast of the red, white, and blue.
The boast of, &c.

The wine cup, the wine cup bring hither,
And fill you it up to the brim,
May the wreath they have won never wither,
Nor the star of their glory grow dim,
May the service united ne'er sever,
And hold to their colors so true,
The army and navy forever,
Three cheers for the red, white, and blue.
Three cheers for &c.

THE PRESIDENT'S MESSAGE.—We need not ask our readers to give this important paper a careful perusal—they will read it over and over again, as we have done, and be the better pleased with it the oftener they read it. It is a plain, but strong and convincing message.

The War News.

The news we have received during the past few days, if reliable, might be of some interest to our readers, but almost every move of the army, and reported skirmishes with the rebels, end in smoke before the telegraphic *news* can be read a second time. We have now before us reported accounts of skirmishes in Virginia with Gov. Wise's body guard, the defeat of Gen. Patterson, &c., &c., all of which we believe to be manufactured for the special benefit of the city daily flash-in-the-pan papers. A very few days, however, must bring us some stirring news from our army, as there has been a heavy movement of our troops into Virginia for a week past.

Congress.—Both Houses of Congress met on the 4th inst. Hon. G. A. Grow, of the Bradford District, Pa., was elected Speaker, and Emerson Etheridge, of Tennessee, Clerk of the House.

In the Senate, on Saturday, Mr. Wilson, of Massachusetts, read the following army bills:

A bill to ratify and confirm certain acts of the President, for the suppression of insurrection and rebellion.

A bill to authorize the employment of volunteers for enforcing the laws, and protecting public property.

A bill to increase the present military establishment of the United States.

A bill providing for the better organization of the military establishment.

A bill to promote the efficiency of the army.

A bill for organizing a volunteer militia force, to be called the National Guard of the United States.

In the House, on Saturday, Mr. Chandler, of Michigan, introduced a bill to confiscate the property of all the Governors of the States, the members of the Legislatures, Judges of the Courts, and all the military officers above the rank of lieutenant, who shall take up arms against the Government of the United States, or aid or abet treason against the Government, and that all such persons be forever disqualified from holding any office of honor, emolument or trust in the Government; such property to be applied to restore to the Union men in the rebel States, any losses they may have suffered.

The President's message was sent in and read in the afternoon of Friday.

THE 2d CONGRESSIONAL DISTRICT.—Col. Charles J. Biddle, Democrat, now at the head of a Regiment near Cumberland, defeated the Republican nominee, Charles O'Neil, by a majority of 217 votes. Mr. Meredith declined the nomination tendered him. The District was considered Republican by at least 1000 majority. In these war times a nomination does not count as sure as an election.

THE FOURTH.—In Huntingdon the day was ushered in by the firing of small guns and the ringing of bells.—The Anderson Zouaves, a company of young men in a neat Zouave uniform, commanded by Capt. Orbison, made an early appearance on the streets, and in company with a number of citizens, took the Broad Top train for the mountain. The Zouaves stopped at Coalmont and passed the day pleasantly. Others of the party went on to Broad Top City, and had a good time there. The Methodist Sunday School passed the day at the Cottage, and the Presbyterian School at McCahan's. There was good living and plenty of it at both these places.—The Zouave Fire Company, commanded by Capt. Campbell, visited both schools. By 8 o'clock, P. M., old and young had returned to their homes, and the town settled down to almost a dead calm.

There was some little skirmishing during the day by the tangle-foot rangers, but no one was seriously wounded.

FROM THE MINNESOTA BOYS.—We have received a letter from the Goodhue county volunteers, First Minnesota Regiment, dated Washington, June 29th, enclosing the following resolution for publication:

Resolved, That we tender to the ladies of Huntingdon, Pa., our sincere thanks for their kind attention to us during our short stay in that place on the 25th of June.

The writer of the letter says that they did not receive any better treatment at any point during their travel of two thousand miles, and adds that "God will reward the ladies of Huntingdon for doing good as they have opportunity."

The writer is anxious to learn the name of the lady who first approached the cars with refreshments. He promised to see her again after the termination of the war, but neglected to get her name. We shall take pleasure in forwarding the name, asking nothing more for our labor than the privilege of peeping into the first *war* letter she may receive. Who is the lady?

SOLDIERS WANTED.—By a late order of the War Department, each company of the Pennsylvania Reserve Regiments must contain 101 men. About 50 men are wanted to fill up the Huntingdon Infantry, Capt. Harrison, and Maj. Dare's Scott Infantry, of Huntingdon Furnace. Members of the companies are now in the county recruiting men to fill up the companies to the required number. Here is a fine opening for the patriotic young men of the county to serve their country in the battle field.

OUR ARMY.—The Report of the Secretary of War informs us that the force now at the command of the Government is 310,000 men, and after the discharge of the three months' volunteers, there will be a force of 230,000 officers and men. The term of the three months' men will expire about the 20th inst., when most of them will return home.

A BLIND GIRL.—Miss Mary L. Day, a blind girl, is stopping at Prof. Coyle's a few days. She has for sale a fine assortment of bead work, made by herself. She also has for sale a book entitled "Incidents in the Life of a Blind Girl," giving her own life, which is very interesting. We would advise ladies and gentlemen to give her a call and examine her bead work and her book.

TALL GRAIN.—A few more specimens have been left at our office.—Wheat and rye from David Thompson's farm in Henderson—the wheat measures 5 feet 6 inches, the rye 7 feet 3 inches. Rye from Hearn's farm, *same township, measuring 7 feet 5 inches.* Walker is beat several inches.

☞ The two Regiments of Pennsylvania Reserve volunteers, under Cols. Biddle and Simmons, have joined a portion of McClellan's army at Cumberland, Md. They moved to that point on Sunday morning last.

IN TOWN.—Rev. McLain has again returned to Pennsylvania. He preached in the Presbyterian church on Sunday morning and evening last.

☞ Breckinridge and several other *prominent* gentlemen passed through town on Wednesday last without creating the least excitement.

OUR CORRESPONDENCE.—Our local and army correspondence has been crowded out to-day by the President's message.

COMMENDATIONS:
From Hon. Lewis D. Campbell, M. C, Ohio.
My family and friends all concur in the opinion that the (Newell) picture is more life-like than any thing they ever saw. My likeness has been repeatedly taken by different Artists in various ways, but I have never yet had one which presents so true to nature, all the features and expressions of countenance as this.
From Hon. R. Joy Morris, late Minister to Italy.
The exquisite finish, beauty and softness of your portraits, combined with their durability of color and faithfulness as likenesses, fully entitle them to commend them to the attention and patronage of all who appreciate true art.
From Col. James Page.
Having occasion for a portrait, I procured one from Mr. Robert Newell, of the city of Philadelphia, a miniature in oil Colors, *under the new process discovered by him*, and take great pleasure in expressing the satisfaction given me, not only by the accuracy of the likeness, but its artistic skill in all respects, and recommend him to the patronage of those disposed to encourage the beautiful art.

ROHRER'S PRACTICAL CALCULATOR.
A Book of Plain Rules and Calculations for Business: Operations, by Martin M. Rohrer, Practical Surveyor and Conveyancer. New Edition, published by J. B. Lippincott & Co., Philadelphia.
This work contains 204 pages, and upwards of 500 Rules and Examples, entirely and thoroughly practical, such as arise every day in the common pursuits of business. It has already passed through a number of editions in rapid succession, and is pronounced by all classes of business men to be the handiest book of reference, pertaining to calculations, that has ever been published.
Every example in the book is worked out in full and stated in a plain manner, so that when a parallel case arises, those referring to the work will find no difficulty in solving it. In a word, *the general arrangement of the* CALCULATOR is simple, that any one who knows how to add, subtract multiply and divide, can easily solve any ordinary example that arises in business, or arrive at the true result of any estimate required.
The chief aim of the author has been to eschew theory and philosophy in figures, aiming only at facts and simplicity, believing that business men care little about spending time in discussing the philosophy of rules, or the science of figures, deeming it sufficient for their purpose to be able at a moment, by reference, to arrive at the true result. The CALCULATOR differs in this respect from all other arithmetics of the day and kindred works—it is a key to practical business relations—it is, in the hands of the business man, what the key to mathematical works in the hands of the teacher in the school room—it facilitates time and insures correctness.
THE WORK TREATS OF THE
Measurement of Land, of Lumber, of Brick and Brick Work, of Stone and Stone work, of grain and grain bins, of coal and coal bins, of wood, of solids, of liquids, of circular, square or irregular vessels, of cisterns and vats, of roofing, of plasterer's, painter's, glazier's, paver's, plumber's, paper hanger's and upholsterers' work. It treats of currency and of foreign and domestic exchange. of the decimal system, of reduction and its extended application to business, of simple and compound interest, and their entire application to business transactions, with the laws and usages governing the same, together with numerous commercial forms—of legal tender, of partial payment on notes, of banking and bank discount, of equation of payment and of partnership accounts, of assessment of taxes, of weights and measures, of square and cubic measure, of board measure, cost and its application to business of inclosure, of excavation, and of many other important practical matters not within the scope of an advertisement to mention.
IT IS JUST THE BOOK FOR THE
Farmer, the merchant, the mechanic, the artizan, or the professional man. It has proven a valuable auxiliary to the lawyer, the justice of the peace, the conveyancer, and real estate broker, to the assessor, the banker, the clerk, to the civil engineer and the surveyor, to the carpenter and bricklayer, to the stonemason and the plasterer, to the paper hanger and upholsterer, to the taver and the tiller, &c. &c.; each and all will find it adapted to their various wants better than any book published.

ANCIENT JERUSALEM,

A LARGE AND BEAUTIFUL

ISOMETRICAL PICTURE

OF

JERUSALEM

And the Sacred Places Surrounding the HOLY CITY,

AS THEY APPEARED IN ANCIENT TIMES.

The above work is commended to the favorable notice of clergymen, and those having charge of Sunday-schools, Bible-classes, and public institutions.

It is about 9 feet long and 5 feet wide, colored and varnished, and mounted on canvas with rollers.

It has been constructed from the most reliable and authentic sources, and will be found an invaluable aid to those engaged in lecturing on the Holy Land, or in imparting instruction to school classes on the subject to which it refers.

It aims to give an exact idea of the city as it appeared in ancient times. It is taken as a "bird's eye" or "balloon" view, the beholder being, in imagination, placed at a considerable elevation, so as to take a comprehensive view of the city and the whole country for some distance around.

The view is accompanied with an Outline Key, in which the different localities are numbered, and a Descriptive Manual containing all the information necessary to enable one to use the view to advantage in teaching or lecturing.

THE SUNDAY-SCHOOL TIMES.

This is a Weekly Religious Paper, published at the very low price of ONE DOLLAR A YEAR. It is designed for *Parents, Teachers,* and all who are engaged or interested in the religious training of the young. It is also an excellent Family Paper.

A portion of the *Sunday-School Times* is occupied with Narratives and other matter particularly interesting to *young persons.* Teachers will find in it much that they will like to read to their classes—interesting matter prepared to their hands, and such as they cannot find elsewhere. For the same reason, members of Bible-classes, and the older scholars generally, will be greatly benefited by the perusal of this paper.

The *Sunday-School Times* has every week a report of the choicest matter, selected from the Noon Prayer Meetings, which are so interesting to all classes of Christians.

Besides a large amount of general religious intelligence, the *Sunday-School Times* contains all the most recent Sunday-school news. It reports all the important Conventions of sunday-school teachers. It discusses the questions which most interest and perplex teachers and parents, respecting the various methods of Religious Training for the young, the means of gaining the attention and affections of children and especially of securing their conversion and bringing them to Christ. The subject of Mission-Schools for cities, and of Sunday-school missionary work for the interior, is thoroughly canvassed. Indeed, there is hardly a topic of practical importance to any who are interested in the subject of religious education, which is not here brought under consideration from week to week.

The conductors of this paper endeavor to remember, that the great end of all Christian effort is *to bring men to Christ.* They aim accordingly, to introduce into every number of the paper something which shall have for its direct object the conversion of souls.

SPECIAL OFFER.

The proprietors of the *Sunday-School Times* have acquired the exclusive right of sale of the splendid work mentioned above, the MAP OF ANCIENT JERUSALEM, offer it as a special premium to those superintendents, teachers, or others, who will assist in getting new subscribers to the paper.

We offer this superb premium to any one who will send us the names of 12 new subscribers and $12 in cash.

CAUTION.

☞ In every case, before beginning to canvass, be sure to write to us *and obtain the necessary documents* and instructions. These will help you greatly in prosecuting the work, and will save you many mistakes. Enclose 5 cents to pay postage. Address

PROPRIETORS OF THE SUNDAY-SCHOOL TIMES,

PRACTICAL CALCULATOR.
PRACTICAL CALCULATOR.
PRACTICAL CALCULATOR.
PRACTICAL CALCULATOR.
PRACTICAL CALCULATOR.

ROHRER'S PRACTICAL CALCULATOR,

A Book of Plain Rules and Calculations for Business Operations, by Martin M. Rohrer, Practical Surveyor and Conveyancer. New Edition, published by J. B. Lippincott & Co., Philadelphia.

This work contains 204 pages, and upwards of 500 Rules and Examples, entirely and thoroughly practical, such as arise every day in the common pursuits of Business. It has already passed through a number of editions in rapid succession, and is pronounced by all classes of business men to be the handiest book of reference, pertaining to calculations, that has ever been published.

Every example in the book is worked out in full and stated in a plain manner, so that when a parallel case arises, those referring to the work will find no difficulty in solving it; in a word, the general arrangement of the CALCULATOR is simple, that any one who knows how to add, subtract, multiply and divide, can easily solve any ordinary example that arises in business, or arrive at the true result of any estimate required.

The chief aim of the author has been to eschew theory and philosophy in figures, aiming only at facts and simplicity, believing that business men care little about spending time in discussing the philosophy of rules, or the science of figures, deeming it sufficient for their purpose to be able at a moment, by reference, to arrive at the true result. The CALCULATOR differs in this respect from all other Arithmetics of the day and kindred works—it is a key to practical business calculations—it is, to the hands of the business man, what the key to mathematical works in the hands of the teacher in the school room—it facilitates time and insures correctness.

THE WORK TREATS OF THE

Measurement of Land, of Lumber, of Brick and Brick Work, of Stone and Stone work, of grain and grain bins, of coal and coal bins, of wood, of solids, of liquids, of circular, square or irregular vessels, of cisterns and vats, of roofing, of plasterer's, painter's, glazier's, paver's, plumber's, paper hanger's and upholsterers' work. It treats of currency and of foreign and domestic exchanges, of the decimal system, of reduction and its extended application to bankers, of simple and compound interest, and their entire application to business transactions, with the laws and usages governing the same, together with numerous commercial forms—of legal tenders, of partial payment on notes, of banking and bank discount, of equation of payment and of partnership accounts, of assessment of taxes, of weights and measures, of square and cubic measure, of the square root and its application to business of surveys, of excavation, and of many other important practical matters not within the scope of an advertisement to mention.

IT IS JUST THE BOOK FOR THE

Farmer, the merchant, the mechanic, the artisan, or the professional man. It has proven a valuable auxiliary to the lawyer, the justice of the peace, the conveyancer, and real estate broker, to the assessor, the banker, the clerk, to the
